

## 2013 Finance Awards – Winners Announced

United Kingdom – 20 November 2013 – The publishers of Acquisition International Magazine have announced the winners of their 2013 Finance Awards.

The awards recognise the outstanding achievements of individuals and companies within the finance sector, encompassing everything from insurance brokers and specialist IT providers to advisers on subjects ranging from equities to renewable energy. AI's Finance Awards identify and honour success, innovation and ethics across international business communities.

AI prides itself on the validity of its awards and its winners. The awards are given solely on merit and are awarded to commend those most deserving for outstanding work over the last 12 months. Our awards recognise leaders in their respective fields and, crucially, are nominated by their clients and their peers.

*"It's clear from our awards that financial services professionals have risen to the challenges of the past 12 months and produced some outstanding work," commented Charlotte Abbott, Chief Co-Ordinator of the 2013 Finance Awards. "The sheer scale of interest took us by surprise and we're delighted that the industry has been so determined to recognise its stars."*

This year's awards recognised over 600 winners in more than 60 countries. ### Methodology

Our winners are determined by three factors, the first of which is the number of votes received. The voting forms were distributed to the 53,000+ subscribers of Acquisition International Magazine along with 55,000 finance professionals. The second factor is our substantial in-house research. This is a vital stage because we accept both self and third-party nominations. Thirdly, we ask the nominees to supply supporting documents which they feel may cement their nominations – all items we are sent are taken into consideration.
